

## CUSTOM DESIGN

Conestoga offers an extensive line of standard models across a wide range of sizes. You may have unique requirements for your location or special features that you can't live without. Conestoga can meet these demands by offering an in-house design team.

Our design team uses state-of-the-art software and other resources to create conceptual sketches and virtual tours so you can see your cabin before it is built.

## VISIT US

Conestoga offers personal tours of our facility throughout the year, as well as our Open House events. Come take a tour of our fully furnished cabin onsite and see how easy it is to start yours.

## CONTACT US

Conestoga has many standard tiny house floorplans but we can also work with you to create your custom tiny house. Contact us to get started!

# SERENITY

With 280 square feet of comfortable stretching space, the Serenity Log Cabin offers living space, a bedroom and a full bathroom along with a classic front porch.

There is plenty of room to relax on the covered front porch with the morning paper or a good book. Considering its size it is no surprise that the Serenity is one of the most popular tiny home cabin kits for sale.

## Conestoga Log Cabins And Homes Provide The Perfect Tiny Houses

By choosing a cabin kit, you allow our experienced team of engineers and building experts to deliver the ultimate tiny home. Here are the advantages of choosing a builder or kit with us:

- **Unbeatable Value** - durable, airtight, low-maintenance, code-compliant and weather-resistant homes
- **Built to Code** - built to meet the specifications of local municipalities, meaning your home will automatically pass inspection
- **Customization** - endless ability to customize based on the customer's vision
- **Attractiveness** - timeless quality and charm of log homes brings a sense of comfort and belonging

BUILDING MEMORIES

# BOULDER LODGE

At 292 square feet, this cabin packs a full bedroom and bathroom with a comfortable, airy living space and is perfect for those looking to join the tiny house movement.
